Reflexomat Basic vessel, RG 1000, grey, 6 bar, for Reflexomat press. unit Article-No.:8650105

Reflex Reflexomat Basic Vessel RG, expansion vessel with replaceable bladder equipped for the installation of a 'reflexomat' control unit, for closed heating and cooling systems, built acc. to EN 13831, approval acc. to EU Pressure Equipment Directive 97/23/EC.

Vessel manufactured of steel with red anti corrosion paint protection. In order to prevent interior corrosion due to the presence of condensed water, the vessel is provided on the inside with an epoxy coating with a minimum thickness of 70mµ.

The high quality butyl bladder is preventing the vessel contents from permeation of oxygen.

Vessel supplied with expansion joint,

safety relief valve, level transducer (tank volume).

Vessels stand vertical with steel profile or tubular feet

Type: RG 1000

Merkmale

Nominal volume: 1000 l Useful volume max.: 900 l perm. flow temp supp. inst.: 120 °C perm. op. temp. diaphragm: 70 °C perm. op. overpressure: 6 bar SV set pressure exp. vessel: 6 bar Diameter: 1000 mm Height: 2025 mm Net weight: 330 kg System connection: DN65/PN6 Colour: grau
